

► Feature:

1. Adopt 32-bit quad-core Cortex-A17 processor high-performance processor, the highest main frequency reaches 1.8GHz, to ensure smooth operation of the system.
2. Support dual-screen asynchronous display: HDMI 4K@60fps, EDP 4Kx2K@30fps, LVDS 1920x1080@30fps.
3. Rich external interfaces, 6 USB interfaces, 1 TP interface, 1 SPI interface, 1 I2C interface, 2 groups of TTL serial ports are perfectly compatible with customer expansion needs.
4. Support 4G CAT4 wireless network, no longer limited to conventional wired network or WiFi.
5. Backup battery support, emergency response can be maintained in the event of sudden power outage; function keys and status lights, reset key + power key + multi-function key (customizable), 3 status lights.

► Specification:

CPU	Quad-core Cortex-A17, the highest main frequency reaches 1.8GHz
Operating system	Android 7.1
Running memory	DDR3*4=2GB
Storage memory	EMMC 8/16GB, supports TF card expansion
WIFI	802.11b/g/n
BT	Bluetooth V4.0
USB	2xUSB TYPE A (one of which supports OTG2.0)
Serial port	1xRS485 interface
HDMI	1xHDMI1.4/2.0 4Kx2K@60fps
Ethernet	4x10/100M RJ45 + 4xDC12V can connect 4 IPCs
Power input	standard 12V /5A
