

## Feature:

1. The ink screen electronic conference table is an intelligent paperless conference device that transmits display information to the terminal through wireless technology, combined with mobile phones and cloud management systems. Applicable to conference rooms of high-end hotels, government agencies, large enterprises and companies.
2. Low-carbon and environmentally friendly, simple to operate, replaces traditional paper table signs, reduces paper printing, and arranges the venue in advance. It is the best choice for the information upgrade of major conference venues.
3. Compared with traditional electronic table signs, it has the characteristics of no reflection when taking photos, no glare when watching for a long time, no black screen when power off, and strong battery life.
4. The screen adopts E-Ink ink screen technology, which is easy to read, flicker-free, radiation-free, and does not hurt the eyes when watching for a long time. The reading angle can be close to 180°, and full-angle reading can bring a better reading experience.
5. Energy saving and power saving, the display is static, power failure does not affect the display content, no refresh and no power consumption, extremely low power consumption, built-in 2 built-in No. 5 Nanfu alkaline batteries, enough power to support no less than 2000 times to modify the display information, can be used for more than 1 year, and ultra-long standby.
6. Adopts advanced Bluetooth + NFC technology, wireless control, one-click refresh, fast and efficient, flashing not only relies on NFC, but also supports any Android and Hongmeng system mobile phones with Bluetooth to modify the table card display information.
7. Both sides can display different information and names, the background can be customized, built-in multiple background skins, support custom image import.
8. Support computer cloud server, management of personnel information, grouping, template background, etc.

**Specification:**

Screen size	7.3 inches
Product size	208*44*149.6mm (length × width × height)
Screen color	black and white, red, blue, yellow, orange and green seven-color screen display
Screen resolution	800*480
Visible area	160.0(H)*96.0(V)mm
DPI	127
Process	aluminum alloy metal shell/ABS
Display content	support name, position, meeting theme, unit, etc.
Working environment	working temperature :15 ~ 35 ° C, storage temperature: -25 ~ 60 ° C, relative humidity: 5% ~ 95% (no condensation)
Background template	customize various fonts, font sizes, and adjust background templates
Power consumption	screen refresh working current 50mA, standby current below 0.2mA, working voltage:2.5-3.6V
Communication method	NFC, Bluetooth
Product weight	528.9g
Installation method	desktop, ready to use
Battery life	Built-in No. 5 Nanfu alkaline battery, fully charged can be used for 1 year
Operating system	Android and Hongmeng system phones, do not support Apple phones without IOS
Power supply	battery power
NFC recognition distance	<1cm
Grayscale	black, white, red, blue, yellow, orange, green 2 grayscales
Display	horizontal screen display
Heat dissipation method	natural air cooling
Structure	upright double-sided display, base local integrated
Data upload time	<5s
Image transmission mode 1	Image transmission through NFC in the center of the display
Image transmission mode 2	Image transmission through mobile phone Bluetooth, keep the transmission range of 0-5m for best
