▶ **Feature:**

1. Adopt 8.8-inch double-sided screen, ultra-bright eye-protection LCD TFT true color display screen, 1280*320 resolution (4:1 standard text ratio, breaking the simple mode application of traditional image screen 16:9 or 4:3)

2. Elegant appearance, beautiful and exquisite

3. 600nits bright display and high-brightness environment

4. High-definition display of personnel names, titles, unit names, backgrounds, etc. Clear and bright, color display pictures, rich colors, no longer traditional single

5. Text supports 3-line display, LOGO, background, and text can be edited arbitrarily on the PC side, one-click fast update, convenient and fast

6. No need to use TF card for single update, all operations can be completed on the PC side, can be updated individually or in batches according to templates.

7. POE power supply, network connection and startup

8. Aluminum alloy oxidation shell, good heat dissipation, special high-precision mold to improve product stability and reliability

▶ **Specification:**

Screen size	8.8 inches
Screen resolution	1280*320
Viewing angle	178°*178°
Screen color	16.7M colors
Display	Horizontal screen display
Working mode	Standalone, networked
Display content	Text, pictures
Interface	TF card slot, MicroUSB
Power	supply POE IEEE 802.3af, IEEE 802.3a
Control interface	RJ45 network port
Connection method	Standard network cable
Power supply	AC85-265V 50Hz
Maximum power consumption	5w
Weight	1.2kg
Shell material	Aluminum alloy
Dimensions (mm)	length * width * height 239*50*97
