

► Feature:

1. Multifunctional portable display, built-in stand, minimalism;
2. HDR pure picture quality, showing more details, more layered light and dark contrast, better color expression;
3. Provides highly accurate touch function, accurate touch and high response touch experience;
4. Fast response without delay, optimized dynamic clarity to keep the picture stable, clear and without residual image
5. Rich interface configuration: standard HDMI interface compatible with more devices, full-function Type-C interface directly connected to mobile phones, computers, laptops

► Specification:

Size	15.6
Resolution	1920*1080
Screen type	IPS
Touch	Supported
Gravity sensor	Gravity sensor
Stylus	Not supported
Peak brightness	300cd/m ²
Refresh rate	60Hz
Color gamut	99% sRGB
Contrast ratio	1000:1
Viewing angle	178°
Screen ratio	16:9
Product size	355*225*4mm
USB-PD	Supported
Speaker	Built-in speaker
Material	Metal (CNC)
Weight	850g
