

Feature:

1. 16 XLR balanced mono channel input. Ultra-low noise circuit design, large dynamic margin.
2. Each channel has 3-band equalization adjustment, MUTE mute switch, 60MM smooth fader attenuator.
3. 1 set of stereo bus, 2 sets of AUX bus output (including FX).
4. Built-in 48V phantom power supply.
5. Comes with 16 DSP digital effects.
6. USB audio playback MP3.
7. Built-in Bluetooth 5.0 playback.
8. LED display clearly displays the playback status.
9. Ten-segment three-color level light display.
10. XLR balanced input microphone amplifier with extremely low noise.
11. Applicable to global power supply voltage and power of 30 watts, flexible use characteristics.

Specification:

Machine size	620 x 367 x 100MM
Packing size	670 x165 440MM
Gross weight	7.5KG
Net weight	6.2KG
