▶ Feature:

1. FT-4IIPUS is an IP decoding board that supports common brand IP cameras to be directly connected to the decoding card

2. Used with matrix, supports H.264/265 signal decoding

3. Can decode 4 channels of 4K, 16 channels of 1080p, and 64 channels of D1 at the same time

4. Supports RTSP and ONVIF protocols

5. Supports direct decoding of common brand IP cameras

6. Can achieve seamless switching function when used with DRS output board
