

### Feature:

1. High-grade aluminum 2U black oxidized brushed panel, beautiful and elegant
2. Dual-channel 5-zone, single-channel 10-zone (70V/100V audio signal).
3. 10 channel zones can be selected at will
4. Each channel load power  $\leq 200W$ , total control power  $\leq 2000W$
5. 10 output channel selection LED indication
6. DC24V and AC100~240V dual power supply, automatically switch to DC24 DC power supply when there is no AC input

### Specification:

Group A input	70V/100V, audio signal 'CH1~CH5'
Group B input	70V/100V, audio signal 'CH6~CH10'
Number of controllable zones	dual-channel 5-zone, single-channel 10-zone
Channel switching capability	500W, audio signal
Power cord	(3×0.75 mm <sup>2</sup> )×1.5M (standard)
Power supply	AC 220V±10% 50-60Hz
Power consumption	10~15W
Machine size	89(H)×483(W)×350(D)mm
Net weight	6.26kg
Controlled zone output capacity	total audio signal input capacity of Group A and Group B:1kW; average load capacity of each zone output can be allocated to 200W
