Feature:

1. High-grade aluminum 2U black oxidized brushed panel, beautiful and elegant
2. Able to adapt to the connection with a variety of different types of switches
3. Automatically connect incoming calls and automatically hang up after the call is completed
4. The number of ring times for incoming calls can be selected with a built-in four-digit ring time selection switch
5. Built-in high-fidelity 5W/8Ω full-range monitoring speaker
6. The monitoring and output volume can be adjusted independently
7. With short-circuit activation signal input port
8. With manual answering and hanging up functions

Specification:

Line input (TEL/LINE)	local call signal
Voice output	10k ohms(Ω) 200mV ~ 0.775V (0 dB), unbalanced
Monitoring speaker	built-in high-fidelity 'HiFi' full-range speaker, power>100mW
Alarm activation output	(0V) short-circuit signal
Power cord	(3×0.5 mm2)×1.5M (standard)
Power supply	AC 220V ± 10% 50-60Hz
Power consumption	5~10W
Machine size	89(H)×483(W)×350(D)mm
Net weight	6.2kg
