

### Feature:

1. High-grade mahogany with aluminum alloy black shell, copper stem, beautiful and generous
2. With two power supply modes of AC and DC, it is more convenient to use
3. With four-tone rising and falling bell prompt tone, more humanized design
4. Special high-quality heart-shaped and super-directional condenser microphone core, reasonable electroacoustic circuit
5. Wide frequency response, fully display high fidelity, clear and bright tone
6. Special technical processing to eliminate the impact sound generated when the microphone is turned on/off

### Specification:

Frequency response	45Hz~18KHz
Sensitivity	-38dB±2dB
Impedance	200Ω
Power supply mode	DC9V/AC220V
Transducer mode	condenser
Directivity	cardioid
Suitable sound range	20-50CM
Prelude sound	with pre-sound, light ring prompt
Size	218*116*278mm
Weight	1.05Kg
