

Network remote wireless remote control

FT-B80WR

Feature:

1. Mainly used to cooperate with the network audio system to remotely control program playback
2. Can be used for temporary control of programs during campus exercises or sports meetings
3. ABS shell, simple and elegant, humanized operation method
4. Super long remote control distance, barrier-free up to 1 km
5. 10 levels of user priority can be set
6. 1000 levels of operation task priority can be set
7. 12 task keys and 6 function keys can be set:
 8. A. Task keys can realize any music playback or real-time call at any time, any number of terminals, and any volume
 9. B. Function keys can realize pause/resume, stop, previous song, next song, volume up, volume down operations for the current task

Specification:

Communication protocol	RS-232
Baud rate	9600bps
Antenna	stretchable
Power consumption	≤5W
Input power	DC9V/0.5A
Dimensions	120 x 102 x 30mm
Weight	0.22Kg
