

Feature:

1. High-grade 7U aluminum alloy black brushed panel, beautiful and elegant
2. Industrial-grade cabinet chassis design, the chassis adopts steel structure, with high anti-magnetic, dust-proof and impact-proof capabilities
3. Industrial hidden retractable keyboard and mouse board, no space is occupied when no operation
4. 3-inch high-resolution touch screen and industrial retractable keyboard operation
5. Strong compatibility, compatible with WINDOWS and server operating systems
6. Anti-vibration and anti-interference, silent fan, high and low temperature resistance, adapt to various broadcast system environments
7. High-reliability power supply, support 7*24 hours uninterrupted operation
8. Adopt high-end aviation box packaging, with good protection such as pressure resistance and fall resistance

Specification:

Processor	Support Core i5/6 generation
Display	17.3-inch high-resolution touch LCD display (1900*960)
Memory	DDR3 1333/1600MHz, 8G DIMM Slot interface, expandable to 16G
Hard disk	128G/SSD solid state hard disk, mSATA interface
Power supply type	220W industrial switching power supply
Operating system	Support Windows/Win XP/Win2000, etc.
Touch screen	10-point capacitive touch screen
Hard disk expansion	one SATA 2.0 Connector, two SATA 3.0 Connectors
Motherboard expansion interface	one PCI-E X16 Slot interface
Display interface	1 VGA interface, 1 HDMI
Network port	2, support 10/100/1000Mbps
Serial port	1, RS-232 serial port
USB interface	3.0USB/4, 2.0USB/8

17.3-inch touch screen control host (CPU:I5/6 generation)

FT-B8101

Line input	3.5 line input interface
Mouse and keyboard interface	1 PS/2
Short circuit trigger interface	1
Power interface	three-position Phoenix tail plug interface
Dimensions (D*W*H)	485mm*300mm*310mm excluding machine feet
Working environment	-10°C~50°C
Storage temperature	-20°C~60°C
Relative humidity	5%~95%, non-condensing state
Weight	26kg (air box)
