

► Specification:

Core processor	800MHz 32
Operating system	Embedded real-time operating system, running after 4s after power-on
Protocol type	Ethernet
Size	7.0 inches
Resolution	1024*600
Storage space	1Gbit
Font library	built-in vector fonts, edge anti-aliasing processing, including any size dot matrix
Image storage	support JPEG, PNG (semi-transparent/full-transparent) compression, support any size image storage
Color	65K colors
Voltage	48V
POE power supply protocol	IEEE802.3af
Communication method	Ethernet
Communication connector specification	RJ45
Image download	SD card
Real-time clock (RTC)	Support countdown, timer, year, month, day and other time display
Screen effective display area (AA)	length × width = 153.7mm×86.2mm
Product size (length*width*height)	Length×width×height=184.0mm×118.0mm×15.1mm
Supporting host computer software	VisualTFT®
Sound playback	Optional
Video playback	MP4 video format, sharing storage space with pictures
