

► Feature:

1. The array sound column speaker adopts a streamlined design, with a beautiful and practical appearance, suitable for sound reinforcement in various architectural spaces, and has beautiful and pleasant sound quality.
2. The sound column speaker adopts ABS plastic mixed with glass fiber to strengthen the box, which is sturdy and durable.
3. The circular waveguide hole in the front and the damping port at the back of the box form a unique low-frequency heart-shaped diffusion, with crisp and pleasant treble, natural and thick timbre, and full bass.
4. Using 4 3-inch high-performance NdFeB magnet drive units, various elements of music are fully expressed, and the timbre is delicate.
5. UV waterproof coating, IPx4 waterproof level, can be installed indoors and outdoors (optional).
6. UL94V-0 flame retardant material (optional).
7. Aluminum mesh, rust-proof box.
8. Optional intelligent installation accessories, with level device, quick-release handle device, shock-proof rubber pad.

► Specification:

Driver unit	4x3 NdFeB
Cone material	pulp coating
Impedance	8Ω
Rated power	120W (480W, PEAK)
SPL (1W/1m)	96dB
Maximum SPL (1W/1m)	116dB
Frequency response	150Hz~14kHz, -6dB 80Hz~20kHz, -10dB
Shell material	ABS plastic + fiberglass
Grille material	aluminum
Diffusion angle (-6dB)	vertical >20°, horizontal >120°
Connection interface	red and black crimping clamp
Mounting hole	10 M6
Mounting system	smart mounting bracket/embedded mounting bracket
Color	black/white (optional)
Dimensions (height × width × depth)	530x100x150mm
Product net weight	2.59kg
Package weight	3.87kg
