FionTu
方图集团

▶ Specification:

Communication mode	WIFI
Power supply voltage	DC9~24V
Power supply method	external power supply
Communication method	TCP/IP (default), MQTT
Sensing distance	0~5 meters
Sensing angle	horizontal 90°, vertical 60°
Accuracy	6cm
Motion trigger time	<0.5S (seconds)
Stationary human perception distance	5 meters (human radial radar movement)
Distance resolution	≤0.5 meters
Operating frequency	24GHz
Operating temperature	-20℃～70℃
Storage temperature	-40℃～85℃
Operating humidity	0-90%RH
Storage humidity	0-95%RH
Installation method	top installation
Outlet length	default 1 meter
