

► Product Features

1. 2.8-inch color display, can display signal, battery power, group, ID address number, speech timer and other contents
2. The unit panel adopts high-strength alloy metal panel, with exquisite appearance
3. High-definition voice restoration, super-cardioid directivity, unique endurance power supply technology
4. The chairman unit has priority control function

► Specifications

Carrier frequency band	UHF640MHz-690MHz	Frequency stability	±0.005%
Harmonic radiation	<-65dBm	Maximum deviation	±45KHz
Bandwidth	50MHz	Channel spacing	125KHz
Spurious suppression	-60dB	Harmonic suppression	>55dBc
Battery used	3 AA batteries (compatible with AA rechargeable batteries)		
Base size	110mm wide*140mm deep*60mm high		
Microphone core	14mm condenser microphone core, supercardioid directivity		
Microphone rod size	360mm long, microphone head diameter 26mm		
Oscillation mode	PLL phase-locked frequency synthesis
